

Sinclair Broadcasting Group's plan to air an anti-Kerry piece of propaganda entitled "Stolen Honor" is not only illegal, but violates Federal Election Laws. It is imperative that this sort of broadcasting not be forced on the public under the guise of "news". In my opinion, this threatens the very core of our democracy.

This falls right in line with their directive of April, 2004 to their stations insisting that they not show the Nightline segment listing names and faces of our brave men and women who have given their lives for our Country

Thank You.
